Positioning

legalbridge.pk

Official Law Firm

Purpose:

- Legal Services
- Consultation
- Practice Areas
- Case Intake
- Contact
- Corporate Website

---

legalbridge.com.pk

Legal Bridge Community

Purpose:

- Professional Profiles
- Community
- Publications
- Legal Knowledge
- Networking
- Events
- Recognition
- Portfolio Platform

These are completely different user intents, which reduces competition between the domains.

Each lawyer gets

Profile

Photo

Biography

Practice Areas

Experience

Education

Cases

Videos

Articles

Books

Certificates

Publications

Languages

Awards

Office

Contact

Social Links

Gallery

Images

Videos

Events

Interviews

Conferences

Office

Awards

Activities

Excellent idea.

I would organize it like this

Awards

Achievements

Events

Seminars

Training

CSR

Campaigns

Media

Webinars

Rankings

I like this.

But don't make fake rankings.

Use real metrics.

Example

Top Contributors

Most Read Authors

Most Active Members

Featured Advocates

Community Leaders

Verified Professionals

Publications

Instead of "Blogs"

I recommend

Publications

because it sounds more professional.

Categories

Articles

Legal Guides

Research

Case Notes

Judgments

Books

White Papers

Templates

Information for the development :

Recommended structure

Home

The homepage should immediately explain that Legal Bridge Community is a professional legal community, not a second law firm website.

Suggested homepage sections:

1. Hero section
2. Featured advocate portfolios
3. Latest publications
4. Top-ranked advocates
5. Recent activities
6. Community reviews
7. Gallery preview
8. Legal Bridge LLP connection
9. Final call to action

For the news notification, showing it after 40 seconds may feel too late. A better approach would be to show a small non-intrusive notification after **8 to 15 seconds**, or when the visitor scrolls around 40 percent of the page.

The notification can display:

- Latest legal news
- Upcoming event
- New advocate profile
- Recent award
- New publication

It should not appear repeatedly during the same session.

Advocate Portfolios

This should be the core section of the website.

Recommended filters:

- Name
- City
- Practice area
- Bar council
- Experience
- Language
- Verified status
- Legal Bridge LLP team member
- Independent community member

Each profile may contain:

- Professional biography
- Education

- Bar enrolment
- Experience
- Practice areas
- Publications
- Awards
- Events
- Training
- Videos
- Images
- Contact or consultation link

External lawyers must be clearly identified as independent community members and not presented as partners or employees of Legal Bridge LLP.

Community

This section should explain the community itself rather than repeat legal services.

Recommended sub-sections:

- Community Overview
- Member Reviews
- Client Reviews
- Frequently Asked Questions
- Community Guidelines
- Verification Process

We should separate **member reviews** from **client reviews**.

Member reviews can discuss professional networking, publication opportunities or events.

Client reviews should only relate to actual legal services and should link to `legalbridge.pk`, because legal services belong to the firm website.

Rankings

The rankings section can work well, but it must be transparent and evidence-based.

Recommended ranking categories:

- Most Viewed Advocates
- Most Read Authors
- Most Active Contributors
- Top Legal Researchers
- Emerging Legal Professionals
- Featured Advocates
- Community Choice

Avoid unsupported titles such as:

- Best Lawyer in Pakistan
- Number One Lawyer
- Top Criminal Lawyer

Each ranking page should explain:

- Data source
- Measurement period
- Eligibility
- Ranking method
- Update frequency
- Whether promotion or payment affects placement

Paid profiles should be marked as **Sponsored** or **Featured**, not mixed with organic rankings.

Publications

This should include content from all approved advocates.

Recommended categories:

- Legal Articles
- Case Commentaries
- Legal Guides
- Research Papers
- Opinions
- Judgments Analysis
- Regulatory Updates
- International Law
- Human Rights
- Corporate and Tax
- Cyber and Technology Law

Every publication should contain:

- Author name
- Author profile
- Publication date
- Updated date
- Jurisdiction
- Sources or legal authorities
- Reviewer, where applicable
- Disclaimer
- Related publications
- Link to the relevant service page on `legalbridge.pk`

We should use the word **Publications** in the main navigation and use **Blogs** only as one content type inside it.

Activities

Combining these items is sensible.

Recommended dropdown:

- News
- Achievements
- Training
- Internships
- Events
- Awards

A slightly cleaner structure would be:

Activities

- News
- Events
- Training
- Internships
- Achievements and Awards

Achievements and Awards can remain separate in the database, even if they appear together in the menu.

Each activity page should include:

- Date
- Location
- Organizer
- Participants
- Images or videos
- Related advocates
- Outcome
- Supporting evidence or announcement

Gallery

Keep Gallery limited to media.

Recommended filters:

- Images
- Videos
- Events
- Training
- Awards
- Interviews

- Community Activities
- Legal Awareness
- Media Appearances

The gallery should avoid becoming a separate news section. Every media item can link back to the related activity, advocate or publication.

About

The About page should explain the platform and its relationship with the firm.

Recommended positioning:

> Legal Bridge Community is a professional legal networking, publishing and portfolio platform powered by Legal Bridge LLP. It provides advocates and legal professionals with a structured space to present professional profiles, publish legal insights, participate in community activities and build professional credibility.

The page should also include a prominent link:

> Visit Legal Bridge LLP for official legal services and consultations.

Contact

The Contact page on `legalbridge.com.pk` should be for:

- Advocate profile inquiries
- Publication submissions
- Community participation
- Event collaboration
- Technical support
- Verification requests
- Advertising inquiries

For legal consultation, it should redirect users to `legalbridge.pk`.

We should not use the same consultation form on both domains.
